

<b>Webinar Title</b>	Free Technology for Teachers – Experiences from The British School of Brussels
<b>Webinar Date</b>	Tuesday 6 October 2015
<b>Webinar Time</b>	12.00 (UK time)
<b>Target audience</b>	Upper Primary and Secondary Teachers.
<b>Learning outcomes</b>	<ul style="list-style-type: none"> <li>• To feel more confident using technology in the classroom</li> <li>• To begin to use a wider variety of web tools in the classroom</li> <li>• To understand how you may use different web tools in the classroom</li> </ul>
<b>Webinar Description</b>	<p>There is so much free technology available on the web, but are you struggling to keep up with it? Charlotte will cover just over 50 of the best web tools out there and how you can use them in the classroom. In the session we will start by looking at the importance of sharing and suitable organisational tools available to teachers. We will then move on to look at cool free video / audio tools, as well as other presentational and interactive tools. Charlotte promises that the tools she will present are not only really cool, but easy for you and the students to use and she hopes you will be integrating several of the tools presented the following month at school.</p> <p>A website link will also be provided with the all the resources shown in the in the session, as well as video tutorials.</p>

**Presenter  
Biography**

Charlotte Lemaitre has been teaching humanities as well as IB and A Level Geography at The British School of Brussels for 7 years. Previously Charlotte taught in the UK system as well as at Cité Scolaire Internationale de Lyon. Charlotte has always been passionate about IT and is constantly looking for effective ways to introduce it into her teaching. She has helped her department develop a detailed VLE and has also written several ibooks for her IB classes.

Charlotte has sat for several years on the school's IT committee, as well as being responsible for helping to trial iPads in the Secondary school. More recently, she has been given the responsibility of turning the school into a Fairtrade school. This transformation has been very successful with the school achieving two UK awards, as well as winning the best Fairtrade school in the region in Belgium.
